

### Amendments to the Claims

This listing of claims will replace all prior versions and listings of claims in the application:

### Listing of Claims

1-54. (Canceled).

55. (Currently Amended) A method for providing a history feature in an interactive television program guide, wherein the interactive television program guide is implemented at least in part on user television equipment, comprising:

displaying an interactive television program guide comprising a plurality of resources including at least a program guide display having data from a program guide database and a web site from the Internet;

receiving a first indication to access the program guide display having data from the program guide database;

receiving a second indication to access the web site from the Internet;

receiving a third indication to access a resource other than the accessed program guide display or the accessed web site;

in response to receiving a fourth indication, providing a history list of the plurality of resources that includes each of:

(i) the program guide display having data from the program guide database, wherein accessing the program guide display a single time in response to the first indication causes the program guide display to be included in the history list,

(ii) the web site from the Internet, wherein accessing the web site a single time in response to the second indication causes the web site to be included in the history list, and

(iii) the resource other than the accessed program guide display or the accessed web site, wherein accessing the resource a single time in response to the third indication causes the resource to be included in the history list;

allowing a user to select in any order any resource from the history list; and

in response to the user selecting a resource, providing the resource.

56. (Canceled)

57. (Previously Presented) The method defined in claim 55 wherein receiving the first and second indications comprises receiving the indications from a supported application or a user input device.

58. (Currently Amended) An interactive television program guide system for providing a history feature in an interactive television program guide, wherein the interactive television program guide is implemented at least in part on user television equipment, comprising:

means for displaying an interactive television program guide comprising a plurality of resources including at least a program guide display having data from a program guide database and a web site from the Internet;

means for receiving a first indication to access the program guide display having data from the program guide database;

means for receiving a second indication to access the web site from the Internet;

means for receiving a third indication to access a resource other than the accessed program guide display or the accessed web site;

means for providing, in response to receiving a fourth indication, a history list of a plurality of resources that includes each of:

(i) the program guide display having data from the program guide database, wherein accessing the program guide display a single time in response to the first indication causes the program guide display to be included in the history list,

(ii) the web site from the Internet, wherein accessing the web site a single time in response to the second indication causes the web site to be included in the history list, and

(iii) the resource other than the accessed program guide display or the accessed web site, wherein accessing the resource a single time in response to the third indication causes the resource to be included in the history list;

means for allowing a user to select in any order any resource from the history list; and

means for, in response to the user selecting a resource, providing the resource.

59. (Canceled)

60. (Previously Presented) The system of claim 58 wherein the means for receiving the first and second indications comprises means for receiving the indications from a supported application or a means for receiving the indications from a user input device.

61. (Currently Amended) An interactive television program guide system for providing a history feature comprising:  
user television equipment on which an interactive television program guide is at least partially implemented, wherein the interactive television program guide is configured to:

display a plurality of resources including at least a program guide display having data from a program guide database and a web site from the Internet;

receive a first indication to access the program guide display having data from the program guide database;

receive a second indication to access the web site from the Internet;

receive a third indication to access a resource other than the accessed program guide display or the accessed web site;

in response to receiving a fourth indication, provide a history list of a plurality of resources that includes each of:

(i) the program guide display having data from the program guide database, wherein accessing the program guide display a single time in response to the first indication causes the program guide display to be included in the history list,

(ii) the web site from the Internet, wherein accessing the web site a single time in response to the second indication causes the web site to be included in the history list, and

(iii) the resource other than the accessed program guide display or the accessed web site, wherein accessing the resource a single time in response to the third indication causes the resource to be included in the history list;

allow a user to select in any order any resource from the history list; and

in response to the user selecting a resource, provide the resource.

62. (Canceled)

63. (Previously Presented) The system of claim 61 wherein the interactive television program guide is further configured to receive the first and second indications from a supported application or a user input device.

64. (New) The method defined in claim 55 wherein providing the history list further comprises each of:

(i) the program guide display having data from the program guide database, wherein accessing the program guide display each time in response to the first indication causes the program guide display to be included in the history list,

(ii) the web site from the Internet, wherein accessing the web site each time in response to the second indication causes the web site to be included in the history list, and

(iii) the resource other than the accessed program guide display or the accessed web site, wherein accessing the resource each time in response to the third indication causes the resource to be included in the history list.

65. (New) The system of claim 58 wherein the means for providing the history list further comprises each of:

(i) the program guide display having data from the program guide database, wherein accessing the program guide display each time in response to the first indication causes the program guide display to be included in the history list,

(ii) the web site from the Internet, wherein accessing the web site each time in response to the second indication causes the web site to be included in the history list, and

(iii) the resource other than the accessed program guide display or the accessed web site, wherein accessing the resource each time in response to the third indication causes the resource to be included in the history list.

66. (New) The system of claim 61 wherein the provide the history list further comprises each of:

(i) the program guide display having data from the program guide database, wherein accessing the program guide display each time in response to the first indication causes the program guide display to be included in the history list,

(ii) the web site from the Internet, wherein accessing the web site each time in response to the second indication causes the web site to be included in the history list, and

(iii) the resource other than the accessed program guide display or the accessed web site, wherein accessing the resource each time in response to the third indication causes the resource to be included in the history list.
